

Good morning all,

Hoping this message finds you and your families safe and sound during these crazy and uncertain times.

Belfor stands ready to assist you in your cleaning and disinfecting needs to combat this coronavirus.

## **BELFOR Offers Disinfection Services and Biohazard Cleaning**

BELFOR offers [disinfection services](#) for buildings and facilities exposed to contamination caused by fires, water, storms, mold, hazmat accidents, crime scenes, and infectious diseases or viruses.

Through our [Environmental](#) division, we have responded to biohazard decontamination projects for over 25 years. We are currently providing disinfection services for municipalities, healthcare facilities, school districts, and private maritime.

Each request for service must be evaluated for safety purposes, plus short-- and long-term potential risks. For a professional consultation or to request our decontamination and disinfection services, please call your local [BELFOR office](#).

Stay with a proven leader in this field, an international company with personal service, fully insured, NYS DoL prevailing wage compliant, quick response times, all CDC recommendations followed, deep cleaning services are also available, have worked with NYS and FEMA in close out documents to ensure full refunds are secured.

Please call me with any questions or concerns.
